### Notice to Members and Guests

We are pleased to share the latest progress on our ongoing construction and renovation works, aimed at enhancing our venue for the enjoyment of everyone:

- Out the front: The suspended slab at the front corner near the roundabout has been completed, and steel frames for the next stage are being built off site.
- Out the back: New support columns have been installed, with more to come, and formwork is being installed in preparation for pouring of the new concrete floors.

This northern extension will be a great place for people to enjoy a meal and the scenic views.

•New female bathroom: This is being built next to the stage. Flooring has been installed, and the power and plumbing are also done. New vents are expected to arrive soon.

•Bistro extension and refurbishment: This project is scheduled to start in June.

•Main building excavation: Excavation beneath the main building on the Reserve Rd side will start soon. This is where the new cool room and keg rooms will be built.

•Bigger grease trap: A 3000L grease trap has been installed to facilitate increased capacity for members and guests.

•Tennis precinct: Engineers are finalising documentation for the construction certificate, and negotiations with builders are in progress.

We remain committed to providing high-quality facilities and appreciate your support and patience as we undertake these important improvements. Further updates will be shared as progress continues.
